The Jack Lake Cottager News

June 2009

False Accusations Removed

Let's set the record straight!

As written in June of 2008, false accusations had been reported to the readers of the Summer Smoke Signals in an article on Page #2, written by Elizabeth Hoyle about the JLCN.

The JLCN accepts the retraction from Elizabeth Hoyle as published in the last winter edition of Smoke Signals.

Many of you did not receive that edition if you were not a JLA member.

Therefore, Elizabeth's Editor's letter wrote "**A follow-up from last Smoke Signals. I had reported not receiving a response from the JLCN. Please note that, in fact, I received a response after I filed my editor's letter.**"

To make it clear, The JLCN "Jack Lake Cottager News" is a not an official "association" requiring elected executives. The JLCN is an interactive News information website. All are welcome to view and express their Voice about issues surrounding Jack Lake.

The JLCN is free and has not accepted any funds offered.

The JLCN is not and should not be confused with the JLA.

We look forward to continuing to inform and assist in information concerning Jack Lake!

The JLCN moderators wish to thank you all for the vast support.

Steve Maybee
